NOMINATION APPLICATION ENGR'G PROJECT of the YEAR

ATTACHMENT DISCUSSIONS:

Attach to the forms a complete written description of the Engineering Achievement Project, including location, sponsors, size, construction time, etc. What were the challenges or special situations that had to be overcome by design engineering? How were they accomplished?

Attach to the general information forms a discussion explaining why the sponsoring Society believes the nominated project is the OUTSTANDING Engineering Achievement for the year –

- What makes it outstanding?
- How is it unique?
- How does the project contribute to society in terms of meeting human or social needs (how does it meet the criteria listed on the first page).

Criteria: The project must be a significant engineering accomplishment or contribution toward solving environmental problems, traffic congestion, industrial research and development, energy and conservation, national defense, or other worthy project that contributes to meeting a human or social need.

OOOOOThe firm or individual for the Engineering Achievement that is selected for this award will be asked to provide a display for the project which highlights the aspects that meet the criteria and which make it an outstanding and unique project. The display will be set up at The Engineers Club the night of the Awards Ceremony and for several weeks thereafter. For the night of the Awards Ceremony, we would like a 10 to 15 minute presentation about the project. 11111
