

## **ESB Engineering Awards**

Traditionally, the Engineering Society of Baltimore has presented awards to the Baltimore engineering profession during National Engineers Week in the following five (5) categories with the accompanying eligibility requirements:

### **Engineer of the Year:**

- Eligibility requirements include that the candidate be 37 Years or older as of December 31<sup>st</sup> the year prior to the award.
- A degree in Engineering, or a Professional's Engineer's license in the State of Maryland, and a practicing engineer within the State of Maryland.
- Member in good standing with an Associate Society which is a member in good standing of the Engineering Society of Baltimore.

### **Young Engineer of the Year:**

- Eligibility requirements include that the candidate be 36 Years or younger as of December 31<sup>st</sup> the year prior to the award.
- A degree in engineering, EIT Certification, or a licensed Professional Engineer in the State of Maryland, and a resident, practicing engineer within the State of Maryland.
- Member in good standing with an Associate Society which is a member in good standing of the Engineering Society of Baltimore.

### **Project of the Year:**

- Eligibility requirements include that the candidate be either an individual or firm responsible for the project. The individual must be a resident within the State of Maryland or the firm must be a Maryland-based firm.
- The project must have been completed during the associate society's qualifying time period but not after December 31<sup>st</sup> the year prior to the award.
- The project must be a significant accomplishment or contribution solving environmental problems, traffic congestion, industrial research and development, energy and conservation, national defense, or other worthy project that contributes to human or social need.

### **Business Firm of the Year:**

- Eligibility requirements include that the candidate firm must have maintained an active office in the State of Maryland in the year of the award.
- The candidate firm must have completed work on a project located in the State of Maryland in the year of the award.

### **Meritorious Service to the Engineering Profession:**

- Eligibility requirements include a degree in engineering or a Professional Engineer's License in the State of Maryland.

- Member in good standing with an Associate Society which is a member in good standing of the Engineering Society of Baltimore.
