MOTHER'S DAY BRUNCH

Heritage Dinner

2019

A LETTER FROM YOUR INCOMING PRESIDENT

As many of you know, we are in the midst of several changes and challenges at our club. Club management changes, declining membership and the biggest challenge; declining revenues from our catering

operation that has provided us with the financial means to continue providing our member benefits and services.

#### We find our organization at a cross roads.

While these times, like all times, can seem overwhelming, I see things a bit differently. We now have a real opportunity to leverage our much-improved building along with the membership benefits we provide to recommit to building our membership and a thriving city club. A club for engineers, but also a club for professionals of all kinds to enjoy all of the benefits a city club has to offer. In order to achieve this goal, we call upon our most valuable resource- our members.

Over the next year, I would like to challenge each member to bring one new member to join the club. If we could do that, we would see a dramatic improvement on the revenues generated from our membership dues which at current levels cannot sustain the membership. Just one member per person to enjoy our club for the same reasons you joined: having a special downtown special bar/restaurant/meeting space/historical site/reciprocal golf club/entertainment venue and community of members to call your own!

of the expression from wine merchants, 'Porch Pounder? The words are intended to convey the idea that the wine is 'easy to drink' & can be enjoyed simply, & because of its value price - in quantity. Join us in June, as we taste wines meant to be savored & enjoyed on your porch, or elsewhere, during warmer weather.
